RUSSIA'S POSITION PUBLICLY DEFINED

Terms of Peace Which Can Be Accepted Made Known.

DEMANDS MUST BE MODERATE

One of the Leading Papers of Russia Declares that Their Plenipotentiaries Must Defend the Caucasian Race Against the Yellow Peril.

St. Petersburg, July 17.—1:27 p. m.—The Novoe Vremya today prints the following statement of Russia's position, which may be inspired:

"Russia can consent only to such a peace as will not affect the dignity or vital interests of the empire. To act otherwise would be fatal to Russia and would threaten all Europe. Europe no longer believes in Japan's assurances that she will not restrict European interests in the Far East. Even in England and America the voices of moral instigations can be heard in favor of the indirect interference of the powers to moderate Japan's demands. Our plenipotentiaries must remember that they must defend the interests not only of Russia but also of the other Caucasion powers and they will find moral support in Berlin, Paris, Washington and perhaps even in London. Our army in the field is much stronger than it was 15 months ago. The Hamburger Nachrichten proposes that Europe intimate to Japan that extreme demands will be resisted by Europe in general and especially Germany. This is a valuable statement. We must ascertain the acceptable maximum of our concessions to Japan from the European point of view act accordingly.

Mutineers Kill Officer.

New York, July 18.—Salesmen employed in a regiment stationed here mutinied today and killed an officer. Mutineers were arrested. Owing to the state of siege the citizens of Lodz are compelled to contribute $1,500 daily to the maintenance of the troops there.

Detective Killed by an Unknown.

Warsaw, July 18.—A sergeant of the detectives was shot and killed here today by an unknown man. A patrol of infantry while pursuing the assassin fired a volley, killing a merchant.

Will Accompany Envoys.

St. Petersburg, July 18.—The report that M. Shipoff, directors of the treasury department, would not accompany the Russian peace mission to Washington, is incorrect.

Jerome Receives Testimony.

New York, July 18.—An official copy of the testimony taken by Superintendent of Insurance Hendricks in his inquiry into the affairs of the Equitable Life Assurance society, which District Attorney Jerome made several unsuccessful attempts to procure last week, was received at the district attorney's office today. It was taken there by a special messenger from the office of Robert Hunter, deputy superintendent of insurance, under an order issued yesterday by Superintendent Hendricks, Mr. Jerome has announced that he will make a careful examination of the testimony and if conditions seems to warrant it, criminal action will be taken.

Soldiers Guarding Prisoners.

Birmingham, Ala., July 18.—A special from Gadsden this morning says that the local military is guarding the jail to prevent the lynching of the five negroes who are suspected of the murder of Mrs. S. J. Smith, the white woman who was found dead after having been criminally assaulted yesterday morning. The mob which surrounded the jail during the night had not entirely dispersed this morning but had been driven back, but those who remained stood off at some distance in groups. No clash occurred during the night and no trouble is expected as long as the troops are on guard. The authorities regard that they have the situation thoroughly in hand.

ANOTHER AUTO ACCIDENT.

Racing With Surface Car Is Cause of People Being Injured.

New York, July 18.—Two young women were probably fatally hurt and their two male companions had a remarkable escape from injury today when the automobile of Fred K. Marshall, of St. Louis, which had been borrowed by Mrs. Marshall's chaffeur, was caught between an elevated railway pillar and a street car at Seventy-ninth street and Third avenue.

The automobile was reduced almost to scrap iron. The 40-horse power machine attempted to race in front of a surface car bound down hill and as it dodged between the elevated pillars and whirled on to the track, it was pinched between the car and a pillar. The rear half of the automobile, in which were seated Miss Cora Michaelis and Helen Donschauser, two of the chauffeur's friends, was demolished and the girls were to entangled in the wreckage of the car and automobile, that it took half an hour to extricate them.

A male companion of the chauffeur was thrown out on the sidewalk, but the chauffeur was uninjured.

Nearly all of the occupants of the street car was thrown to the floor, and the conductor was so severely injured that he had to be taken to a hospital. Frederick Marshall, owner of the machine, was not in the city at the time of the accident.

BEGGARS HAD BANK ACCOUNTS.

New York Detectives Uncover a Big Scheme to Fleece Italians.

New York, July 18.—Detectives employed by the charity organization society have caused six alleged beggars, all property owners, to be arraigned in the Harlem court. It was asserted by the officers that the six prisoners had formed themselves into a sort of beggars trust to do the Italian feast of Our Lady of Mount Carmel, which is being celebrated in Harlem's little Italy.

All of the prisoners were believed to have bank accounts and were landlords. When one policeman found $588 in bills and a quantity of small coin. Another had a bank book showing deposits of $1,400. It is alleged the gang made elaborate plans for their operations in the neighborhood of the leading Italian church, where they were caught. They found the Italians quite liberal during the festival and were reaping a harvest.

Will Sail Soon for Panama.

Washington, July 18.—Chairman Shonts of the Panama canal commission, chief engineer Stevens and Colonel O. H. Ernst, also a member of the commission and of its engineering committee will sail for Panama next Thursday on the steamer Mexico which has recently been purchased, and will make its first trip on that date. Two other members of the commission, Major Harrod and General Haina, are on the isthmus as also is Governor Magoon. Mr. Shonts will not return to Washington before leaving, but Mr. Stevens will reach here tomorrow to conclude matters in his office as he does not expect to return from the isthmus for several months.

Killed Man In Church.

Owingsville, Ky., July 18.—Telegrams from Beattyville, Ky., say that John Miller, of Breathitt county shot and killed James Crees and wounded James M. Thomas, during a fight in a church on Fraly creek, Nee county, yesterday. Miller entered the church according to the report received here, and announced that he was the best man in the house. Crees and Thomas disputed this, and the shooting followed. A mob formed to lynch Miller, but the sheriff landed his prisoner safely in the Beattyville jail.

General Thomas Passes Away.

Dalton, Ga., Juuly 18—General B. M. Thomas died at his home in this city. Peritonitis was the cause of his death. He was a graduate of West Point, and was a distinguished brigadier general in the confederate service. He was one of Dalton's ablest and most influential citizens, and has been superintendent of the Dalton city schools for a number of years, and held that position at the time of his death.

WILD ANIMAL STOPS RAILROAD TRAFFIC

South American Jaguar Escapes From Cage On Car.

AFTER HARD FIGHT IS CAPTURED

More Than 2,000 People and Four Trains Were Held Up at Tunnel—A Man Is Badly Clawed and a Lady Breaks One of Her Limbs.

Colorado Springs, Colo., July 18.—More than 2,000 people and four passenger trains of the Colorado Midland railroad have been held at Tunnell No. 6, 2 miles west of Manitou, by a fierce South American jaguar.

Before he was captured, the animal clawed Joseph Bennett, of this city, making a severe gash across the right leg. Miss Belmont, a passenger on one of the trains, became frightened and in endeavoring to scale a high cliff, fell a distance of 20 feet, breaking her left leg.

The jaguar and a polar bear occupied two compartments in a large cage that was loaded on a flat car of the train belonging to a circus. The car was too large to enter a tunnel and as the car struck the roof of the tunnel it was torn off. The keeper threw on the airbrakes and stopped the train. He threw rocks at the bear and fired blank cartridges at the jaguar to keep them from escaping. The animals crawled under the car and during the efforts to drive it into another cage, Bennett received his injuries. The animal was finally driven into a small cage, but before the door could be closed the train started, and the jaguar escaped. It dashed through the tunnel but upon emerging at the otner end found itself in a narrow cut. The annimal was again captured and placed in his cage.

SEC. SHAW DELIVERS ADDRESS.

At Dedication of New York Y. M. C. A. Building at Lake Geneva, Wis.

Lake Geneva, Wis., July 18.—Leslie M. Shaw, secretary of the treasury, has delivered the dedicatory address at the new $50,000 Y. M. C. A. building here. Mr. Shaw's remarks were directed to and for the benefit of the American boy. He said that there were few places where the boy was wanted. He was always in the way.

Boys are shoved out and there are few open doors for them, said Mr. Shaw. It was to provide an open door for the boys where they would be surrounded by good influences and be directed in paths of recitude and virtue that this building has been provided. So that by means of the right to the uplifting environments the boy will be enabled to become a good, upright, honest and influential citizen of the community. I am often asked what a boy should do, and my answer is to do anything, but be sure and do that thing better than it is now being done. That is the one great secret of success in this life.

Police Relieved of Strike Duty.

Chicago, July 18.—The frequently deferred plan of Mayor Dunne to take policemen off the wagons of the firms affected by the teamsters' strike went into effect today in the business districts. About 300 policemen were returned to ordinary duties. For a time the business streets and crossings will be guarded by additional policemen. Specially guarded routes to all freight stations will be taken by wagons of the strike-affected firms. As a preliminary to the change today, the police on wagons in the business district have for a week been in plain clothing instead of uniforms.

Two Electrocuted at Sing Sing.

Ossinig, N. Y., July 18.—James Breen, white, and Charles Jackson, a negro, were put to death in the electric chair at Sing Sing prison today. Both executions were successful. Breen shot Police Captain William E. Kelyea during a quarrel in the latter's saloon in New York city in 1903. Jackson killed Charles W. Rouberg with a club in July, 1903, in the Bronx in an attempt at highway robbery.

READY TO RECEIVE ENVOYS.

All Arrangements Made Except Naming the Day of Meeting.

Oyster Bay, L. I., July 18—President Roosevelt devoted himself almost exclusively today to the transaction of the executive business forwarded to him from Washington and to recreation at and about Sagamore Hill. No arrangements for visitors was made, and no visitors was expected. Except for the naming of the day the arrangements have been completed for the approaching visit to the president of the peace plenipotentiaries. The navy department has suggested, and the president has approved the idea that the envoys be brought to Oyster bay from New York on two cruisers. After the informal reception the plenipotentiaries will go aboard the Mayflower and Dolphin here and will be taken in those vessels to Portsmouth, N. H., with an escort of at least one cruiser and perhaps two. Commander Cameron McR. Winslow, who has been ordered to command the Mayflower which will be at the disposal of the envoys during their sojourn in the United States, will continue as the president's naval aide notwithstanding his new command.

VOTE TO CONTINUE STRUGGLE.

Teamsters Strike in Chicago Will Be Prolonged Indefinitely.

Chicago, July 18.—Both the railway express and the department store drivers having voted to continue the struggle, union leaders predicted today that the teamsters' strike would be prolonged until after the convention of the International Brotherhood of Teamsters, which opens in Philadelphia Aug. 7. The department store drivers decided by an almost unanimous vote to continue the strike after they had been informed that the railway express drivers had taken similar action.

The railway express drivers' vote resulted in a count of 163 for war and 121 for peace. There are more than 700 members in the organization and the light vote that was cast is due, it is said, to the fact that nearly half of the members of the union have obtained work in other lines. Those who have become indifferent remained away from the polls.

TUTOR ROBBED HIS EMPLOYER.

$15,000 Worth of Jewels Were Missing at Same Time He Was.

New York, July 18.—Edward Park, who has been arrested at Christiansand, Norway, in connection with the theft of $15,000 worth of jewels from the home of Banker J. J. Higginson, is learned to have beep a tutor in the household. One of the banker's sons was recently placed in Harvard by Park, and the second boy has been studying at a private school in Massachusetts under his coaching. Parks was held in high esteem by the family and was implicitly trusted.

When the robbery was reported some days ago, the police inspected Parks and asserted that his photogrph had been identified by a pawnbroker who held some stolen jewels as pledges for loans. Leave of absence from his duties was granted the tutor only the day before the police suspected him, and he took passage by steamer for Norway under his own name.

New Baptist World Alliance.

London, July 18.—The Baptist congress at today's session approved the constitution of the ne wBaptist world alliance, the objects being to promote good fellowship and co-operation among the Baptists of all countries. All unions or associations of Baptist churches can join. The executive committee will consist of seven members from the United States, five from Great Britain, two from Canada and seven from the rest of the world.

Elevator Fell Five Stories.

Philadelphia, July 18.—An elevator fell from the fifth floor of the Land Title building, the latest skyscraper office building in the city, today. John C. Bell, district attorney, had one leg broken. He was taken to the University of Pennsylvania hospital for treatment. Harvey Kingston, assistant city solicitor, was seriously injured. [illegible]

JAPAN'S TERMS ARE A PROFOUND SECRET

No One Has Slightest Conception Of Their Demands.

THE JAPANESE ADMIRE M. WITTE

Russia's Financial Agent In London Says Peace Depends Upon the Reasonableness of the Japs Demands at the Conference.

London, July 18.—M. Routkowski, the Russian financial agent in London, informed the Associated Press today that he had not received his appointment to the peace commission though he expected to accompany the plenipotentiaries to Washigton.

Since M. Witte's appointment as the chief plenipotentiary, M. Routkowski has been sounded by the government and has signified his willingness to act. M. Routkowski said:

"Japan has not yet intimated her terms and the reports of her alleged terms are generally speculative. Hints have been dropped to Russia from time to time through British and other sources, but nothing positive has yet been proposed, and we have been informed that Japan will lay her definite propositions only before the Washington conference. The Japanese have great confidence in M. Witte, and M. Witte has great admiration for them. The personnel of Russia's commission should convince the Japanese that peace depends on the reasonableness of their terms. I believe Russias acceptance of peace proposals is a greater show of strength than a continuation of the struggle for the sake of pride. Ending the war and turning her attention to international improvement and the development of her industries will enhance the prestige of Russia more than a continuation of the conflict until Japan is finally overcome."

RAWLINGS TRIAL BEGINS.

Charged With Murdering the Two Carter Children.

Valdosta, Ga., July 18.—One of the most sensational trials ever held in this section of the state came up at a special term of the superior court today, Judge Mitchell, of Thomasville, presiding.

The case is that against Milton, Jesse and Leonard Rawlings, as alleged accessory, and J. G. Rawlings, the father of the boys, and Frank Turner, a negro preacher, as alleged instigators of the crime. Above all these, however, stands J. G. Rawlings, who is charged with being the arch instigator in the murder of Willie and Carrie Carter, 15 and 13-year-old children of Mr. and Mrs. W. L. Carter, of the Hahira district.

The story of the killing and the facts surrounding it almost stagger human belief. There were many circumstances in the case, it is claimed, that pointed to the Rawlings as the instigators of the crime, even before the statement of the Carters or the confession of Alf Moore had been made.

Gunboat Goes Aground.

Navesink, N. J., July 18—The United States gunboat Dubuque is aground in the Horse Shoe lower New York bay, near Spermacetto Cove. The wind is light and sea smooth. The warship is in no danger. An attempt to float the vessel at high tide this forenoon was unsuccessful. Tugs will be sent to her assistance and will probably float her at the next full tide. The Dubuque came here for orders prior to her going up the Mississippi river to Iowa.

New State Judiciary System.

Providence, R. I., July 18.—The [illegible] state judiciary system of Rhode Island was inaugurated today. In place of the supreme court as it has existed for over a century, a new supreme court has been formed to carry on the work of the former appellate division while a superior court is substituted for the old common pleas division. The new system was adopted by the legislature.

ALACHUA COURT SEEMS VERY SLOW

No Decision Has Yet Been Rendered in Sessions Murder Case.

SESSION SINCE MONDAY

Court Being Conducted Behind Closed Doors, and None But Those Connected With Same Are Allowed Entrance—Little Excitement at Alachua.

While no definite particulars as regards evidence in the killing of young Sessions at Old Newnansville some time during Saturday night have been learned, parties from Alachua state that a young white man, N. Slaughter, and two negroes, Lewis Sullivan and Sam Jackson, have been arrested in connection with the case.

Just what time the killing occurred is not known. About 10 o'clock Sunday morning a colored man went to the home of Robert Davis, Newnansville, and told Mr. Davis that a man was lying drunk or sick in the road a few rods in the rear of his (Davis') home. Mr. Davis, in company with Mr. Love and the negro, went to the place, when they recognized Sessions and discovered that he had been murdered.

A coroner's jury was empanelled and sat upon the case Sunday afternoon. Monday, the defendants were arraigned before Justice Caswell at Alachua. The decision of the court has not yet reached this city.

An Alachua Report.

Alachua, July 18.—The trial of N. Slaughter, charged with the murder of Sam Sessions, is still on. The trial is being heard before Judge Caswell, and has been in progress since Monday afternoon at 2 o'clock. No one but those directly connected with the case are allowed in the court room, hence it is impossible to learn how the trial is progressing.

A great many people are here to attend the trial, but there is very little excitement. It is thought probable the trial will close tonight, but the outcome cannot be forecasted.

MR. CARTER IS PLEASED.

Deeply Impressed With Gainesville and Located Family Here.

Among the prominent South Florida visitors to Gainesville is W. J. Carter of Tampa, who is extensively engaged in the lumber business at that point. Mr. Carter is well pleased with Gainesville, especially since it has been decided to locate the University of Florida here, and has sent his family to reside here permanently on account of educational facilities. Mrs. Carter and children are pleasantly located in the Flewellen cottage, East Main street, and are perfectly contented.

Mr. Carter is one of the leading and most prosperous citizens of Tampa. He owns and operates a large saw mill near Lakeland, in Polk county, where he cuts his own lumber for the markets. He has secured the contract for furnishing the lumber and erecting the immense buildings for the Florida State Mid-Winter Fair, which will be held in Tampa from November 15 to 30 of the present year.

"The Florida State Fair is going to be the finest thing that ever happened for the State as far as advertising is concerned," remarked Mr. Carter. "The officers and directors are determined to make it a winner, and are working to that end. The main building will be 910 feet in length by 95 feet wide, and will contain 72 exhibit apartments, with a wide hallway between and an elevated platform above, so that visitors may get a bird's view of the situation. The material to be used will be first-class, as the Fair Association has a lease for five years, and propose to erect substantial buildings."

Mr. Carter is also a stockholder in the Fair, and has great confidence in its possibilities for benefiting every section of the State.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure [illegible] J. W. McCollum & Co.

A DIFFERENT VERSION.

J. H. Stark Claims That Nelson Was the Aggressor in Altercation.

Editor Sun: In your issue of July 13 appeared an article under the head of "Nelson in Trouble." Please allow me space to correct this most gross misstatement of facts. I am a subscriber to your paper and have been for years, and cannot believe that knowingly you would permit the publication of such an untruth to gratify the malice of Nelson, at whose instigation the article must have been written.

Now, the facts in the case are these: There had been a little argument and cutting about a cow previous to the shooting, and not after, as Nelson states, in which he was the aggressor and cut me first. After a little we were parted and, in company with my family and some friends, started home. Nelson lives on the west side of Campville, but instead of going home after the trouble he proceeded to his father's house, the east side of town, in the direction of my home, procured a gun and cut off my retreat. The first notice I had of trouble was when I saw Nelson with his gun raised to his shoulder to fire, ordering me to stop. My wagon was loaded with women and men, and I fired at him fearing that he would kill some of us. After the shooting he got down from the horse and ran and we never got near enough to harm him after the shooting and did not try to. Why should we go to Nelson's house and tell his father that we had murdered him when we knew he was alive? In either case it would have been the work of a fool. We understand Nelson's little game. I am to have a hearing next Wednesday and he thinks that little piece will influence the court and jury, but he is mistaken.

NEW YORK TEMPERATURE.

Reached 104 Degrees in New York, While We Were Comfortable.

New York City must be a warm proposition at this season of the year, for C. W. Chase telegraphed Col. H. F. Dutton yesterday that the thermometer stood at the highest 104 degrees. People in Florida would make a strenuous "kick" at the weather clerk on this temperature. We summer "stay-at-homes" who cannot afford to leave our business for various reasons are compelled to sleep under cover at night, while those who go North for "comfort" must recline under an electric fan in order to breathe with ease. Our advice to Northerners is, come to Florida to keep warm in winter; come to Florida to keep cool in summer.

OFF TO CUBA.

J. O. Andrews Departed Tuesday for That Republic for a Few Days.

J. O. Andrews left Tuesday for Havana and other points in Cuba, where he will remain for the next two or three weeks. He will go direct to Havana, where he will join a party from Louisiana and Arkansas, who are looking for homes. He is agent for lands, and expects to place a sugar growers' colony in Santa Clara Province, and a colony from Arkansas in the Province of Pinar del Rio.

Hill Densler of High Springs accompanied Mr. Andrews on his trip.

Death of Mrs. Johnson.

Information has been received in this city of the death of Mrs. Johnson, which sad event occurred a few days ago at her home in Columbus, Ga.

Deceased was a member of one of the oldest families in Georgia. She was a noble, Christian lady, and a great church worker during her active life.

Deceased was the mother of U. H. Johnson, one of the popular conductors of the Atlantic Coast Line, and a sister of Hon. H. E. Day of Jacksonville, who resided here for many years.

Sympathy is extended to these relatives in their sad hour of bereavement.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1. Sold by W. M Johnson.

Attention, Ye Needy.

For home purchasing contracts or loans in the Standard Guarantee and Trust Co. of Washington, D. C., write to Geo. W. Moyers, or call at the "Racket Store" of J. C. Evans in Gainesville. If I am not there, Mr. Evans will wait on you for me.

GEO. W. MOYERS.

June 1st, 1905.

Moonlight Parties.

Moonlight parties seem to be popular fads at this season, those inclined for a good time taking advantage of the full moon. On Monday evening a party of young people participated in a moonlight drive to Newnan's lake, and last night another party comprising Mesdames J. S. Bodiford, C. A. Nichols, Chas. Allen and J. W. McCollum, and Misses Jessie Bodiford and Kittie LaFontisee, with a number of other friends, visited the same place. The moon was bright and the party enjoyed the ride and the outing immensely.

Change of Schedule.

A change of schedule will go into effect on the Atlantic Coast Line today, which will effect two trains leaving this city. The train for Jacksonville, which has been leaving at 2 o'clock in the afternoon, will now leave at 1:50, and the train which has been making its departure for High Springs at 6 o'clock p. m. will, beginning today, leave at 3:10 o'clock. The traveling public will be governed accordingly.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and $1. Sold by W. M. Johnson.

Cotton Climbing Upward.

New Orleans, La., July 18.—The cotton market was active today with the prices mounting upward as rapidly as they went down last week. The general belief that the new government acreage report will show a reduction of at least 15 per cent compared with the report of June of only 11.4 per cent, and the unprecedentedly bad crop reports, were the causes of the rise. At one time the range of prices was about 80 points higher than the lowest of the reaction of last week.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher

American Squadron Sighted.

Plymouth, July 18.—The North German Lloyd steamer Kaiser Wilhelm II from New York, arrived here today and reported passing the American squadron commanded by Rear Admiral Sigsbee, which is conveying the body of Admiral Paul Jones. Admiral Sigsbee reported all well on board the American warships, adding "Will be off Chesapeake Cape July 22."

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W McCollum & Co.

BY DYNAMITE CAPS MAN LOSES LIFE

Fatal Accident to Porter of Baird Hardware Company.

HOOKS FATALLY INJURED

Was Horribly Mutilated About Head, One Arm Completely Shredded, and the Unfortunate Man Died Within a Few Hours—Great Excitement.

As the result of an explosion of 600 dynamite caps in the rear of the store of the Baird Hardware Company, Tuesday, Chas. Hooks had the misfortune to lose his life.

The explosion occurred about half-past nine, and was so violent that the report was heard for blocks, and the big building in which it occurred was severely shaken. In a short time a large number of pedestrians assembled upon the scene, which was followed by confusion and excitement. It eventually became necessary to close the doors in order to keep the crowd back, as it was reported upon the street that two or three persons had been killed by the accident. The excitement somewhat abated, however, when this was learned to be untrue.

The explosion was not in the main store, but in a building used as a packing room. Hooks, who was the porter for the Baird Hardware Company, had been sent to the warehouse for the purpose of getting a box of caps for shipment. Noting that the top was not nailed on, the man secured hatchet and nails with the intention of making it more secure. It is presumed that the point of one of the nails came in contact with the contents of the box, when the explosion followed.

Captain S. C. Tucker and W. B. Taylor, a member of the firm, were standing within a few feet of the scene when the explosion occurred, and both were severely shaken up, Captain Tucker declaring that the concussion lifted him clear of the floor. Fortunately the gentlemen escaped the flying missiles. A hole was made in the floor directly underneath where the box sat, and a window nearby was shattered.

Hooks was taken in an ambulance to a physician and surgeon, where attention was rendered, but his condition was so serious that he died in a few hours. It was a miracle that the unfortunate man was not killed instantly.

The shipping clerk had not left Hooks more than two minutes, and just as he left told the man to take the caps out of the box before he undertook to strengthen it.

Long familiarity with them had caused Hooks to be oblivious to the danger attached to handling them roughly.

This is the first accident the firm ever had from any explosive and an accident of its kind could only come through great carelessness on the part of the person handling them.

A BUSINESS CHANGE.

Henry C. Futch Buys Grocery Business From Carter Bros.

There was an important business deal in this city Monday afternoon, when Henry C. Futch purchased from Carter Bros., corner West Main and E. Liberty streets, the stock of groceries, together with the good will of the firm.

This firm, which was composed of W. P. Carter and N. R. Carter, Jr., have been engaged in business here for the past nine years. They are energetic and a hard working pair, and by close attention to business have managed to work up a most satisfactory and lucrative trade. Mr. Futch, consequently, at the beginning, will step into a fine business.

It is the intention of Mr. Futch, who has styled the place the University Grocery, to have the store thoroughly renovated and overhauled, as well as remodeled, and he proposes to carry in stock one of the finest lines of fancy goods ever seen in this market, including an extra choice assortment of cigars and tobacco. He is a popular young man with many friends, and will no doubt be enabled to increase the trade.

Merrill D. Wilcox will be associated with the new concern in the capacity of salesman. Mr. Wilcox is a young man of broad experience in the mercantile business, and will make a valuable acquisition.

Messrs. Carter have no intention of leaving Gainesville, but are yet undecided as to what business they will engage in.

MEMORIAL FUND

To be Raised by the Confederate Veterans and Their Sons.

The following resolutions were unanimously adopted at the Louisville Convention of United Confederate Veterans, held in June last:

Whereas, At our Reunion of 1904, our federation turned over to the Sons the sacred duty of raising the funds for the Memorial to the Women of the Confederacy; and

Whereas, In so doing we never relinquish our deep and abiding love for the cause, or our intention to aid and assist it by every means in our power; and

Whereas, We have clearly shown this by our appointment of a committee to cooperate, and by the work which this committee and many other Veterans in all parts of the South have done during the past year; and

Whereas, It will ever be our most earnest desire to see this tribute paid to our glorious women, and we are most anxious to further cooperate with and give substantial aid to our Sons in the performance of this sacred duty; therefore be it

Resolved, 1st. That each Camp of the United Confederate Veterans, immediately after the adjournment of this convention and the return home of its delegates, shall appoint a committee to actively canvass its respective community to raise funds for this Memorial to the Women of the Confederacy, to which noble, worthy and just object this federation has repeatedly and solemnly pledged itself and its comrades.

2d. That in case any Camp does not take action within one month by appointing this committee, it shall then become the duty of its Commander to make appointment of such committee. If no action is then taken by the Commander, any member of the Camp who is enthused with that high sense of his duty to this holy cause and desires to honor our Godlike women, is urged to personally take charge of the matter, secure the endorsement of his local Camp or its officers and make such collections as he can from his community.

3d. That all funds collected under resolutions one and two shall be deposited in some home bank—at interest—to the credit of the Chairman of the United Confederate Veterans Committee of Cooperation, (Gen. C. Irvine Walker, Charleston, S. C.) and that he shall be promptly advised of such deposit.

4th. That the above resolutions are not intended to be obligatory upon such Camps as have already taken similar action or have already contributed to this fund $50 or more.

5th. That each Camp is urged to endeavor to raise from its community, as its quota, at the very least, the sum of $50.

6th. That all Camps shall complete this work by January 1st, 1906, and on that date make a report of the results achieved to the Chairman of our Committee of Cooperation, General C. Irvine Walker, Charleston, S. C.

The Road Tax.

Editor Sun: In the proceedings of the county commissioners' last meeting I observe that a tax levy of four mills was made for the roads and bridges. As the commissioners are only permitted to levy two mills unless they give sixty days notice of their intention to levy a rate in excess thereof, and as I have never seen such notice in any of the county papers, I would like to know under what statute they acted?

I am as much in favor of good roads as any person in the county, but I believe in tracking the law in such matters. It may be that the commissioners have the authority, but if so I am unable to find the law.

TAX PAYER.

Senator Clark's Condition Favorable.

New York, July 18.—Senator W. A. Clark, who is recovering from an operation upon an abscess in the ear, passed a comfortable night and the indications this morning were apparently more favorable. Dr. McKernan visited the patient at 6:45 a. m., remaining but half an hour.

Strike for Higher Wages.

Hazelton, Pa., July 18.—Alleging that they are not being paid standard wages, the 250 employes of the Hazleton Mountains Coal company at Black Ridge went on strike today. The company is not a party to the award of the Anthracite strike committee.

Three Negroes to Hang.

Memphis, July 18.—Six negroes, convicted of murder, were to have been hanged here tomorrow, but the action of Governor Cox in reprieving John B. Champion, J. C. Newfleet and Eugene Bone for 30 days, reduces the number to three. The men to be executed are "Toots" Taylor, A. M. Miles and Major Mills.

Curious Notices.

The following ambiguous notice was posted up early in the last century for the information and guidance of the dwellers on certain property in the county of Kent, in England: "Notice is hereby given that the Marquis of Camden (on account of the backwardness of the harvest) will not shoot himself nor any of his tenants till the 14th of September."

A similar notice as regards ambiguity once made its appearance near Brentford in England. It read: "Ten Shillings Reward.—Any person found trespassing on these lands or damaging these fences on conviction will receive the above reward. Dogs poisoned." If the magistrates were at all lenient thereabout it might have become a profitable occupation trespassing or breaking down fences.

Got the Best of Ingersoll.

A man who was once in the plumbing business told the following story on Bob Ingersoll. "Ingersoll," said he, "came into my place and asked me to fix a sink at his house. 'How much money have you got in your clothes?' says I. 'What!' says he. 'That's what,' says I, and he went into his pocket and pulled up a roll. 'That'll do,' says I, taking it. 'Never mind about counting it. I'll do the job.'

"'What do you mean?' says he.

"'This,' says I: 'I was on a spree last night and got locked up. In the next cell to me was a thief who was caught with the goods. He sent for you, and the first thing you did was to ask him how much money he had, and you took it. I'm doing the same thing by you.'

"'Keep the money,' says he."

He Was Firm.

The comptroller of the treasury is an autocrat whose decision overrides even that of the chief magistrate of the nation. Some years ago the then incumbent of the office refused to sign a warrant for money which General Grant thought it proper to expend. "That is right," the president said. "I admire your firmness. Where your conscience is concerned never permit yourself to be coerced. You may consider yourself clear in this affair, for I shall appoint a new comptroller tomorrow."

The Rest He Needed.

"Mrs. Nagget," said the doctor, "your husband needs a rest. He must go to Europe for three months."

"Oh, splendid!" she exclaimed. "I'll be delighted to go there."

"Very good. You can go for three months after he comes back. That will give him six months' rest."—Philadelphia Ledger.

Beauty.

A poetess asks, "Oh, where does beauty linger?" We think that we are breaking no confidence when we reply that in these artistic times it generally lingers on the toilet table until the girl puts it on with a brush and a powder puff.—London Tit-Bits.

Slightly Defined.

Teacher—What are the three personal pronouns? Pupil—He, she and it. Teacher—Give an example of their use. Pupil—Husband, wife and baby.—New York Times.

Geometrical.

"Don't know her? Why, she lives in the same square with you."

"Yes, but she's not in the same circle."—Cleveland Leader.

Many a man chivalrously shouts of woman, "God bless her!" but fails to bless her himself.—Burlington Hawkeye.

SANTA FE FARDEL.

Crop Report and School Notes—The River Rising—Personal.

Santa Fe, July 17.—The watermelon growers are through shipping here. They shipped about one hundred carloads from this point. While the returns were not what they desired, they express themselves as being satisfied.

The corn crop is an average here, though it was injured greatly by the drouth; especially the early planting cotton is being greatly injured by the recent heavy rains. Shedding is reported from all points. Potatoes are looking well. There is a larger area planted than usual this year.

R. H. Holstein and family are visiting relatives in South Carolina. They expect to extend their visit until August.

Mrs. W. A. Jones of Madison, Ga., who has been visiting relatives here, will return home today.

Miss Alma Blitch left for Seabreeze today. She will accompany Mr. O. M. Futch and family of Alachua. They expect to be gone two weeks or a month.

The people of all shades and colors are rejoicing over the great victory won by Gainesville. Gainesville and Alachua county should be proud of W. R. Thomas. He has proven that he is not one of the doubting Thomas'.

It is calculated to make one tired to watch how ready some of those in this county, who, after pawing the ground and raising dust in the last election, because one Booker Washington was invited here, accepted the position to teach a negro school. Shame! Shame!

The public school summer term, which is being taught by Prof. W. E. Bell, is a success. The enrollment is larger than was expected—too many for one teacher. The patrons are well pleased with Prof. Bell and are giving him their unanimous support.

The Santa Fe river is on a boom. It is higher than it has been for two years.

Grandpapa Futch was taken ill with acute indigestion last night. Dr. Roberts of LaCrosse is attending him. He is somewhat better this morning.

Some Big Melon Stories—Other Local and Personal Notes.

Evinston, July 17.—W. M. Nichols has returned to Plant City.

H. M. Smith spent two days around Rochelle looking for melon and lettuce land.

We are having nice rains and grass, potatoes cotton and corn are looking well.

F. C. Cellon of Hague has been here for several days in the interest of the Alachua division of the Mutual Life Assurance Association of Georgia.

J. W. Shettleworth has gone to Leesburg, where his wife and child are visiting. John took along one of those mammoth watermelons that are raised here by Wolfenden & Barron.

Wolfenden & Barron sold to J. W. Means of McIntosh 100 melons when they were half grown. Mr. Means marked and paid for them, and when they were delivered a few days ago they each averaged 65 pounds.

F. W. Barron is beating all melon growers this season. He drew in 28 melons a few days ago that weighed 2,708 pounds. Two 96-pounders were sent to Gainesville, two 92-pounders to Chester, S. C., and two 90-pounders to E. E. Jolly of Leesburg. The rest of them were sent as free lunch to people at the railroad station.

Want Sunday Law Enforced.

New York, July 17.—Salesmen employed in retail stores on the lower East Side, who year in and year out work from 14 to 16 hours a day, seven days a week, have determined to form an organization with the object of compelling the police to enforce the Sunday closing law. They will ask that a special detail of police be assigned each Sunday to arrest their employers if they open. A majority of the employers, it is claimed, who are now forced by competition to keep open seven days a week would be glad to have the law enforced.

Outraged Husband Kills Man.

Chicago, July 18.—W. C. Jerome, a bookkeeper, who claims to be a relative of District Attorney Jerome, of New York, has struck Charles Faure, a Frenchman, in the face, knocking him down a flight of stairs and causing injuries from which he died later at a hospital. The reason Jerome gave for his act was that Faure had caused a separation between himself and wife. Mrs. Jerome was with Faure at the time of the assault. Jerome is under arrest and Mrs. Jerome, who for the last four weeks has been known as Mme. Faure, is held as a witness.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." Unequalled quick cure for throat and lung troubles. At all drug stores; price 50c and $1, guaranteed. Trial bottle free.

Wind and Hail Destroys Crops.

New York, July 18.—A violent windstorm, accompanied by heavy hail has visited the suburbs of St. German, Maison's LaFitte, Argenteuil and Sannos, according to a Herald dispatch from Paris. Enoromous damage was done, but fortunately, there were no fatalities. Many trees were uprooted, telegraph poles broken and chimney pots scattered. Some of the hailstones were of record size. A Herald dispatch from Naples also reports heavy damage from storms of wind and hail near Lacce. Crops were devasted over a large area and the losses are estimated at $400,000.

Indigestion,

With its companions, heartburn flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by W. M. Johnson.

Judge Discharges Receiver.

St. Louis, July 18—On motion of the attorneys for the People's United States bank, capitalized at $2,500,000, Judge McElhinney, of the St. Louis county circuit court today dissolved the receivership for that institution and discharged Receiver Selden P. Spencer, appointed by him several days ago on the request of Secretary of State Swanger of Missouri.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressing as well as Dandruff cure.

The navy yard employes will ask President Roosevelt to grant them a half holiday.

The "University Grocery" is the first sign of recognition of the changed order of things.

Perhaps it is well to have our streets made wider when the University gets here, to make room for the yell.

Hon. Robert S. Phillips of Tampa, it is stated, will be a candidate for Congress to succeed Hon. S. M. Sparkman.

Florida is a most delightful place for people to come for pleasure in winter, but if you are looking for health the summer time is best.

The moaning of the tide may be sweet music to some; but when the tied is a measly canine in a neighbor's back yard, it is different.

Heavens defend us! The Tampa Tribune asks: "Why not have a Florida poets' day at the Florida State Fair?" Don't throw a wet blanket on the whole thing.

Peary does not show very poor judgment in starting for the north pole at the present time. It would certainly be quite refreshing to be near it in this good old summer time.

The cattle industry of South Florida is assuming greater proportions very rapidly, and when the timber is removed from the land there will be cattle to take its place and pay a good profit.

There is one less fool in this world. Philan Langlois was rocking a boat at Dover, N. H., when it capsized and himself and two others were drowned. There ought to be a law passed to lock up such idiots.

Henry Ward Beecher once said: "The Lord might have made a better berry than the strawberry, but he never did." Some fellow has picked the saying up and changed it by substituting watermelon for strawberry.

The hotels and boarding houses in Portland, Oregon, have got the idea that they are the whole thing in the Lewis and Clark Exposition, and have even raised the prices on their regular boarders so high that they are obliged to take to tents in which to live.

The new vagrancy law passed by the Legislature at the last session is causing much comment about the State. It has a long list of those termed as vagrants, but there are mighty few, if any, to be found in this locality. There seems to be a desire on the part of all, white and black, to "get busy," and there is plenty to do in Gainesville.

Members of the Jones family who were making arrangements to appear distant relatives of Admiral John Paul Jones, whose remains will be finally interred in this country, are somewhat disappointed to learn that his right name was John Paul, and that the Jones was only added that he might inherit an estate on the Rappahannock River in Virginia.

BUILDING MATERIAL.

The demand for building material throughout the country at the present time exceeds any time in the history of the country. A few years ago brick and lumber supplied the demand, with the exception of granite and a small amount of other building stone. The brick used were made of clay and there were plenty to supply the needs of all. Now we have the sand brick and the building stone made of Portland cement, and in many instances building interests are kept back from lack of material.

In this State the saw and planing mills are taxed to their utmost capacities to keep up with orders for lumber, and it would seem that in a few years the supply of timber would be exhausted.

In the lumber districts of the North trees that were considered worthless a few years ago are being worked up into lumber, band saws being used, so that the narrow cuts these saws make will save all that is possible, which is one board in eight in sawing inch stuff.

In the cities where high buildings are erected, so far this year the demand for structural steel exceeds that of the corresponding period of last year by at least 100 per cent, and the mills engaged in the rolling of heavy structural work find it almost impossible to make deliveries on specified dates.

With our rapid growth it is evident that we have room for all who come here, if the material for buildings to accommodate them can be supplied fast enough.

UNIVERSITY ECHOES.

It is intimated by the Lake City papers that the University removal question is not yet settled. The inference is broad that, although the Board of Control has selected Gainesville as the place for the University, that Lake City contemplates some step toward obstructing the movement. The people of Florida will hardly tolerate any interference in this matter.—Tampa Herald.

In locating the State University at Gainesville, the Board of Control doubtless had no other motive or incentive than a desire to please a majority of the people and best serve the interest of the whole State. Gainesville is an ideal location and we believe the institution will prosper there. Let's all pull together and strive to make the University the very best in the South.—Marianna Times-Courier.

The people of Florida without any question wanted the University located at Gainesville. That enterprising city gave the State $40,000 cash and purchased property for $30,000 with $70,000 on hand. There should be no delay in starting the work of building. We hope the board will begin at once and on a foundation commensurate with the probable growth of the institution in years to come.—DeFuniak Herald.

The Globe does not appropriate to itself one particle of credit for the location of the State University at Gainesville. It does not believe that its murmurings had the least influence with the Board of Control. It was in sympathy with Gainesville, and that is the whole story. Its influence, perhaps, was as much felt as that of any other paper printed in the State, but it is to the citizens of Gainesville that the credit belongs.—Tampa Globe.

The Blue and the Gray met at St. Petersburg and organized the United Veterans' Camp of St. Petersburg, the members numbering 20. This is a grand movement—keep it up.

The express drivers in Chicago will not let the strike entirely die out. It's a good idea to cover up the fire so it can be kindled at any convenient time.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHENEY & Co., Props., Toledo, Ohio.

DISTINCTLY IMMORAL.

Secretary Bonaparte, without intending to pass judgment on any other individual, believes that as a public official he should not accept a railroad pass, and he has, therefore, returned one which had been sent to him by a leading railroad.

In a large number of cases the giving and accepting of railroad passes probably involves no obligations and no immorality. The railroads give the passes as an act of courtesy, and those who accept them do so without thought of rendering any service in return. But while this is true of many passes, it is not true of the system as a whole. While it is possible for an individual to accept a pass under certain conditions without any violation of moral law, there can be no doubt whatever that the pass system as a whole is distinctly immoral. In many instances, at least, it ought to be abolished.

The German Bride.

As soon as a German girl is engaged she is called "bride" by her lover, who continues to call her so until she becomes his wife. Immediately on betrothal the lovers exchange rings, which are intended to be worn by both for the rest of their lives. The woman wears her ring on her left hand during her engagement and on her right afterward. The man continues to wear his as his wife did when she was a "bride," and thus one can tell at a glance whether a man be free to marry or not.

Rembrandt a Unique Figure.

The sudden uprising of art in Holland produced in the person of Rembrandt one of the foremost artists of the world. He is one of the few great original men who stand alone. You cannot trace his genius to the influence of his time or to the work of other men who preceded him, and, although he had followers, none of them could do what he did. He shines out in solitary bigness like a Shakespeare or Beethoven or Michael Angelo.—St. Nicholas.

His High Hope.

The ambitious young merchant caressed the shapely hand of the heiress.

"Dear little hand!" he murmured absentmindedly. "So delicate! So fragile! And yet I hope some day to see it lift the heavy mortgage that's on my store!"—Chicago Tribune.

THE LEMON IN THE TEA.

It Is a Survival From Very Ancient Chinese Methods.

Whence the slices of lemon with the tea in Russia?

Okakura Kakuzo, a Japanese artist and critic, writing in the International Quarterly, says they point to a survival from very ancient Chinese methods, when tea leaves "were steamed, crushed in a mortar, made into a cake and boiled together with rice, ginger, salt, orange peel, spices, milk and sometimes with onions!"

Okakura tells also of the work of Luwuh, the poet, who in the eighth century became the first apostle of tea and wrote in three volumes and ten chapters the "Chaking," or "Holy Scripture of Tea." Luwuh instituted the code of tea and is become the tutelary god of Chinese merchants of the leaf.

According to this master, the mountain spring furnishes the best water, then cone river water and plain spring water. There are three stages of boiling. The cake tea is roasted before the fire "until it becomes soft, like a baby's arm," and is shredded into powder between pieces of fine paper. Salt is put in the first boil, the tea in the second. At the third boil a dipperful of cold water is poured into the kettle to settle the tea and revive "the youth of the water." Then the beverage is poured into cups.

It was of such a beverage that Lotung, another poet, wrote: "The first cup moistens my lips and throat, the second cup breaks my loneliness, the third cup searches my barren entrail but to find therein some 5,000 volumes of odd ideographs. The fourth cup raises a slight perspiration — all the wrong of life passes away through my pores. At the fifth cup I am purified; the sixth cup calls me to the realm of the immortals. The seventh cup—ah, but I could take no more!"

"Tea began as a medicine and ended as a beverage." Also it has had rituals, ceremonies and philosophies. In Japan it became "the religion of the art of life," and "the tea room was an oasis in the dreary waste of existence." This was in the fifteenth century, and the philosophy of Teaism which then arose is described as "a cult founded on the adoration of the beautiful among the sordid facts of everyday existence. It inculcates purity and harmony, the mystery of mutual charity, the romanticism of the social order."

"Strangely enough," says Okakura, "humanity has so far met in the teacup. It is the only Asiatic ceremonial which commands universal respect The white man has scoffed at our religion and our morals, but has accepted the brown beverage without hesitation. The afternoon tea is now an important function in western society."

Electric Light Bulbs.

While grasping a small incandescent electric lamp one night Professor Sommer, a German scientist, happened to observe that on contact with his hand the bulb of the lamp would show a luminosity comparable with a mist of light, illuminating certain parts of the glass as well as his fingers even before the electric current was completed. This phenomenon could be produced several times by rubbing the electric bulb with the hand. Not all electric bulbs are suitable for the experiment. Those which have been used for some time and which show the well known dark coating of carbon particles are especially apt to fail. After rubbing a new or nearly new lamp containing no metallic conductors strongly on the skin of the forehead or lower arm, to withdraw the lamp suddenly from the skin will cause the bulb to show the luminous phenomenon. Withdrawing the lamp and stopping it suddenly causes its outlines to stand out distinctly illuminated, while in the middle a bright spot is observed.

The Frugal Crow.

A correspondent sends to the Pioneer (Allahabad) the following notes on the fact that a case has been reported of a crow's nest having been found which was made out of telegraph wire: "Anything resembling a twig is pressed into service. In the days of old, before glass stoppered bottles came into use for soda water, many nests were made of the wires used to keep in the corks of such bottles. A nest constructed out of brandy bottle wires was once taken in a palm tree outside Madras. Another nest was found composed of bits of tin stolen from the tin bazaar in Madras. One pair of crows constructed a nest out of gold and silver spectacle frames purloined from the factory of Messrs. Lawrence & Mayo in Bombay. The materials for this nest, of which the value was 400 rupees, were stolen by the wily crows during the luncheon hour. It was noticed that the spectacle frames were disappearing from the factory in a mysterious manner, but it was some time before the thief was discovered."

Seeing and Believing.

"You don't agree, then, that 'seeing is believing?'"

"Not much! I see some people every day that I never could believe."—Philadelphia Ledger.

A WOMAN WITH A WILL.

The Way Jessie Bartlett Davis Once Collected Her Salary.

Jessie Bartlett Davis was a woman of indomitable will and with a stock of self confidence born of a healthy outdoor life. When not engaged in theatrical life her entire time was devoted to outdoor pursuits. On her ranch in California she tamed and rode broncbos, herded cattle and sheep and attended to her chickens with equal facility. This combined to make her a good business woman and with the muscular activity to back it.

Mrs. Davis was once engaged to sing in a vaudeville company in New York city. The manager of the theater was famous for his negligence in meeting demands of performers whom he had engaged, and, in fact, there were ugly rumors about checks bearing his signature being returned from the bank with the ominous words "No funds" written across their faces.

At the conclusion of her week's engagement Mrs. Davis received a check for her salary. That was Saturday night, and it was an open secret to everybody that she had engaged passage on a steamship leaving the following Wednesday for Europe, where she had planned to take a long rest. The proprietor of the Broadway hotel where she was stopping obligingly cashed the check. It was returned to him Tuesday afternoon as worthless.

Mrs. Davis took back the repudiated paper and smiled grimly. "I will make it all right this evening," she said. Armed with a stout cane she went to the manager's office that evening, the stick serving as excuse for a limp due to a "slight sprain," she announced. The manager received her with evident embarrassment and listened to the story of the check told quietly and in moderate language.

"It was a mistake on the part of his bookkeeper," he explained. The stupid fellow should have known that the manager's account in that particular bank had been closed out long ago. But if Mrs. Davis would wait a few minutes he would give her a check on another bank which would be honored without fail.

But Mrs. Davis was not accepting checks. She was to leave for London the next morning and nothing but the hard, cold cash would satisfy her. The manager was obdurate and Mrs. Davis politely insistent. Then it developed into a wordy war, and Mrs. Davis arose with the cane in hand. Handling it like a foil, she passed the ferrule lightly through the glass door of the manager's office. Another pass and the ferrule broke one of the window panes. The clatter of glass brought a half dozen employees to the spot. The manager danced around as if on a hot stove and begged her to desist. The scandal, he said, would ruin him. By way of reply Mrs. Davis punctured another window.

One of the employees, who was a relative of the manager, rushed forward to disarm her. The cane circled in the air, and the man retreated nursing a big welt across the back of his head.

The audience was just entering the theater and the crashing of glass caused many to stop and conjecture the cause. Mrs. Davis, smiling with the utmost good nature, moved to the other side of the office and gazed critically at the glass of a large picture—the manager's favorite possession.

"Stop!" he almost shouted. "You shall have your money." A messenger was dispatched to the box office with an order. He returned in a few minutes with a huge roll of bills, which Mrs. Davis carefully counted and stowed away. Then, bidding the manager a smiling good night, she swept out of the office and to her hotel, where the bad check was redeemed and added to her collection of souvenirs of her experiences on the stage.—New York Press.

The Pole Star.

We will try to give you some idea of the distance that separates us from the pole star. As you know, light travels at the rate of about 186,000 miles a second—more than seven times round the earth while you are saying "John Robinson" slowly. Well, suppose that a ray of light, traveling at this terrific speed of a million miles in less than five and a half seconds, had started from the polar star on its journey to the earth at the moment of your birth that particular ray will not reach you until you are more than halfway between your thirty-sixth and thirty-seventh birthdays. When you look on the pole star you see it not as it is today, but as it was about fifty years ago.

An Australian Treat.

A treat in an Australian wilderness camp is thus described by an explorer: "On our way down, of course, it was necessary to stop at McLeod's camp to get something to clear the bronchial tubes. There was one great Scotchman among the party, who said, when I asked him what his poison was, 'Weel, I'll just take a tin of fruit.' He had a tin of pineapple. Now, the price of preserved fruit at that time and in such a place was something to make you sit up, so that Scotchman scored."

RED AND GRAY SQUIRRELS.

The Males of Both Species Are Incorrigible Fighters.

A very quarrelsome disposition has the chickaree, or American red squirrel, and there are continual fights between it and its cousin the gray squirrel. These fights seldom end in a decided victory for either side. The males of both species are incorrigible fighters. It is no unusual sight to see a couple of red or gray squirrels come tumbling from some lofty limb so locked in each other's embrace as to appear almost like one animal.

Though the shock of striking the ground separates them, it is for a moment only. They immediately clinch again and continue to roll over and over, fighting fiercely until one breaks away, only to be followed by the other, who keeps up a running fight for some distance until he feels certain that he has so punished the conquered one that he will not dare return.

Red squirrels by their greater agility and quickness can worst a gray squirrel every time in a running fight, but let them once come to a clinch and the superior size and weight of the gray squirrel are bound to tell.—Chicago News.

The "Thin Rice" of the Chinese.

The very first thing that a Chinaman takes when he gets up in the morning is a bowl of hot "congee," or, as he calls it, "thin rice." This is simply rice boiled away to a thinnish drinkable consistency. If allowed to cool it would thicken into paste. Some care is required to make it properly. "If the water is visible and not the rice," says Yuan Mei, "that is not congee. If the rice is visible and not the water, that is not congee either. The two must be indistinguishably blended before you can call the result congee."

Not Negotiable.

"Do you ever look back, Blobbs, on the days of your boyhood, the dear faces in the home, the moon shining on the river, the hills, the valleys, the"—

"No," interrupted Blobbs brusquely, "it doesn't pay!"

"Doesn't pay what?"

"Dividends."—Chicago Record-Herald.

Satisfaction.

"Too bad about Dingman going wrong, isn't it?"

"Yes, but I haven't been grieving much about it. My wife always held him up to me as a model."—Detroit Tribune.

A Common Trait.

"I have noticed," says the Hon. Alex Appleby, "that everybody who has a tooth pulled says it was one of the most stubborn the dentist ever extracted."—Kansas City Times.

BUSY WEEK AHEAD OF SOLONS.

Georgia Legislators Will Have Plenty of Work To Do.

Atlanta, July 18.—This is going to be a busy week with the legislature. The lower house, at least, and its committee, are going to have just about all they can do. And it is not likely there will be much lagging on the senate side of the general assembly. The senate has some important legislation ready for consideration, and one or two lively debates may be forthcoming.

The anti-pass bill by Mr. Hall, of Bibb, is promised as the opening bill in the house. This bill, which forbids any corporation to issue a free pass or frank to any public official of the state under penalty of $1,000 fine, comes back from the general judiciary committee with a favorable report by a vote of 23 to 8.

The general appropriations committee of the house will begin its hardest work on Tuesday afternoon, when it will tackle the general appropriations bill. This measure the committee proposes to report back to the house within a week or ten days at the outside. It depends on the exten' to which the committee can scale it is all, how much there will be left for special appropriations. The present indications are that there will be very little doing in this line unless the committee finds some money, and so far as is known the state has not lost any. There will be about $150,000 for this purpose, and at least $400,000 will be asked.

There are indications that the present general assembly will enact some sort of legislation regarding the Western and Atlantic railroad, and there are several propositions on this line now before the house and senate.

Over in the senate there seems to be a strong inclination toward the 99-year lease plan as outlined in the bill by Senator W. S. McHenry, of the forty-second. This, it is argued, would effectually dispose of the state road question, would insure the state a good steady income from its property and at the same time leave the state with an asset upon which it could realize at any time that it might become necessary. It is also said that the lessees, thus securing practical ownership, would not hesitate to make all needed improvements and keep fully abreast of the times.

CHARGE DWITH PEONAGE.

Alabama Citizens Are Indicted by United States Grand Jury.

Montgomery, Ala., July 18.—A special posse, headed by United States Deputy Marshal L. J. Bryan, left here for Chambers county with warrants for five white citizens, named Heath and Adams, charged with peonage.

On Friday a negro from Chambers county came to Montgomery, and, upon his allegation, warrants charging peonage was issued against Heath and Adams. These warrants were sent to Deputy Marshal Hiram Gibson, at his home in Roanoke. Before Gibson had left for Fredonia to arrest Heath and Adams, two negroes of Fredonia, who were witnesses against the two white men, visited the home of Gibson, saying that they had been run out of Fredonia. Gibson reported this to headquarters in Montgomery, and, at his suggestion, a posse was organized for the purpose of arresting Heath and Adams. It is not expected that the posse will reach Fredonia before tomorrow.

Chicagoans Dying from the Heat.

Chicago, July 18.—With the temperature today 6 degrees higher than at the corresponding time yesterday, deaths from the heat began early. The first reported was that of William Dubinsky, winner of many prizes in contests for dressing and killing, who was overcome by heat while at work in the killing room of the Hammond company today at the stock yards. He died almost instantly. Not far away and almost at the same time John Goggan also succumbed to the heat at his home, and died in a few minutes. The temperature was 93 degrees in the shade.

No Fatalities Follows the Fourth.

Pittsburg, July 18.—For the first time in years there have been no deaths for lockjaw due to the fourth of July celebration in this vicinity. Last year 15 or 20 deaths occurred. The precautions taken by the bureau of healt hand the strict police regulations against blank cartridge pistols and high explosive fireworks, are responsible for the absence of lockjaw and fatalities.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

Woman Kills Young Girl.

St. Louis, Mo., July 18.—In the presence of her mother, Bessie Barnes, aged 15 years, was shot dead on the street in front of her home at 2792 Lucas avenue. Mrs. Mary Carder, aged 30 years, is under arrest charged with the shooting, which is said to have been the culmination of ill-feeling between the two families. Mrs. Carder lay strapped to a cot at the police station raving over the shooting. By her side were her three small children.

Would-Be Murderer Suicides.

Texarkana, Ark., July 18.—The body of Charles Reynolds, of New York, who yesterday in a fit of jealousy shot his bride of six weeks, was found in an alley, he having shot himself. In his pocket was found a note stating that remorse over having shot his wife had caused him to kill himself. Mrs. Reynolds is expected to recover.

Bent Her Double.

"I knew no one, for four weeks when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores; price 50c.

SECRETARY SEWARD.

His Influence Upon the Foreign Policy of This Country.

The importance of Secretary Seward's influence in the domestic affairs of the United States during Johnson's administration has probably been exaggerated, but it would be hard to exaggerate the importance of what he achieved and of what he initiated in his own proper field of diplomacy. His chief, occupied as he was with fierce controversies over other subjects, found, we may well suppose, but little time for foreign relations. He does not appear to have interfered with policies which were already adopted or to have initiated any new policies of his own. Seward must therefore be held responsible to a degree somewhat unusual for the conduct of the delicate negotiations, involving very far reaching consequences, which the war gave rise to. It was he who first presented America to Europe in that attitude of conscious strength which the thorough establishment of our nationality at last enabled us to take. It was he who reasserted effectively, yet without any arrogance, our traditional stand in reference to the Latin republics to the south of us. It was he who, facing westward, accomplished an expansion of our system into a region never contemplated until his day by those who guided our destinies and turned our thoughts upon the shores of the Pacific as a field for American trade and American influence.—William Garrott Brown in Atlantic.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Quite Poetic.

"Tell me, Harry," said May Brightley's admirer to her young brother, "who is this other fellow that's been calling on your sister?"

"I don't know his name," replied Harry. "I just call him 'April showers.'"

"What for?"

"Because he brings May flowers."

Forced to Starve.

B. F. Leek of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At all drug stores; only 25c.
